

Energy Efficiency under SE Presidency

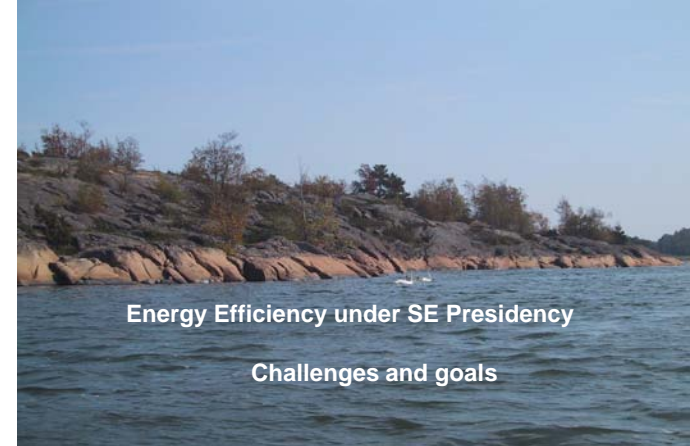

Challenges and goals

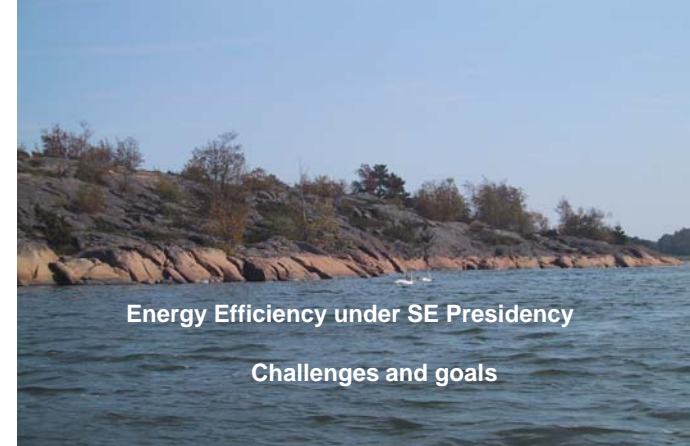

Challenges

- **Institutional changes**
- **Economic crisis**
- **Copenhagen**

... but in the field of energy, energy efficiency is the main priority

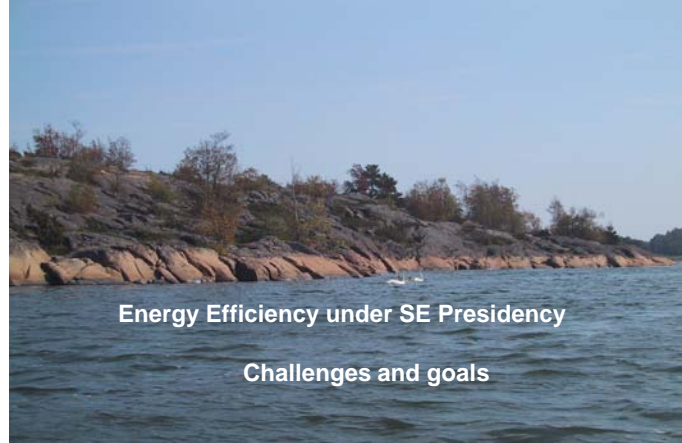

Goals

- **Reach an agreement on the Energy Efficiency Proposals in the Second Strategic Energy Review (Buildings, Labelling, Tyres)**
- **Introduce the theme "Eco-Efficient Economy"**
- **Feed in to the coming revision of the Energy Efficiency Action Plan**
- **Highlight the Covenant of Mayors initiative**

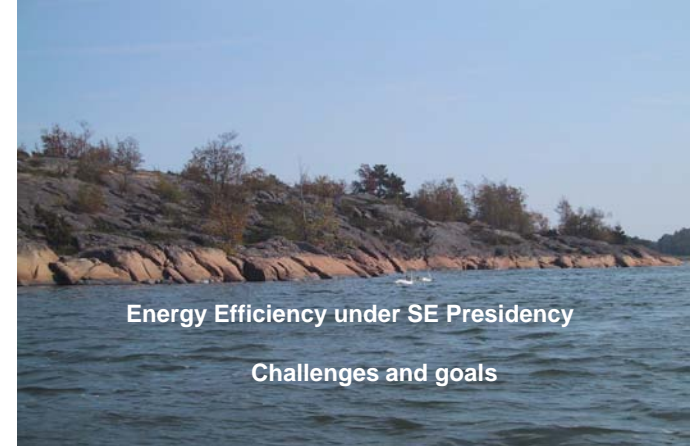

Why introduce the theme "Eco-Efficient Economy"?

- To highlight the link between energy efficiency and jobs creation (post Lisbon Agenda)
- To have a common view in different Council formations (Energy, Environment, Competitiveness)
- To seize the opportunities in times of crisis with the aim of making Europe leader in "Green technology"

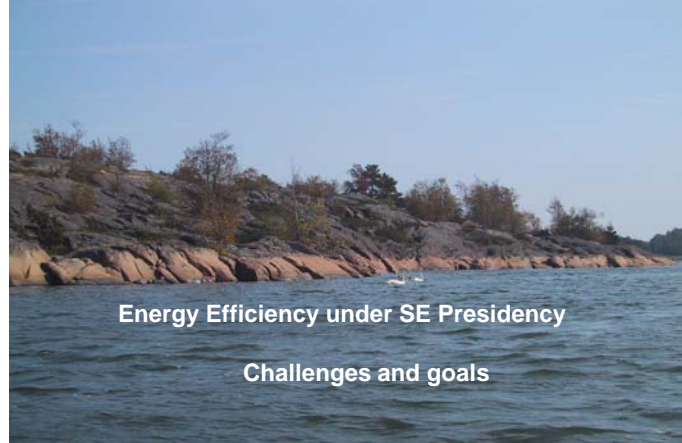

Other priority dossiers

- **The coming proposal on Gas Security of Supply (expected in July) and Communication on Gas Diversification Projects**
- **The coming communication on SET-Plan financing (expected in June/July)**

Key dates

- **Informal Energy/Environment Council 23-25 July, Åre, Sweden**
- **Informal Competitiveness Council 14-15 October, Umeå, Sweden**
- **Wind Conference 14-15 September, Stockholm**
- **High Level Conference on Efficient Bio Energy 16-18 September, Stockholm**
- **SET-Plan Conference 21-22 October, Stockholm**
- **Energy Council, 7 December, Brussels**
